

This project is part of the line of aid for energy saving and efficiency in SMEs and large companies in the industrial sector, co-financed by the European Regional Development Fund (ERDF), coordinated by the IDAE and managed by the Autonomous Regions, covered by the National Energy efficiency Fund, with the aim of achieving a cleaner and more sustainable economy.

### ***“A way of making Europe”***

**Title of the project:** Photovoltaic installation of 50.4 Kw for self-consumption in the warehouse belonging to Bodegas Murua.

**Beneficiary:** Bodegas Murua.

**Total investment:** 39,180.00 €.

**Amount of aid:** 15,672.00 €.

**Description of project:**

The project was carried out at the facilities of BODEGAS MURUA, in CARRETERA DE LAGUARDIA, S/N, ELCIEGO (ÁLAVA) and consists of the following action:

The installation of 112 photovoltaic modules of 450 Wp unit power, 50.4 kWp in total on the roof of the industrial plant. Installation of 40 kW nominal power in inverters with 100 % utilisation of the energy generated.

This action generates savings in the plant’s electricity consumption through renewable solar electricity generation, avoiding the generation of greenhouse gases and the consumption of natural resources from non-renewable energy sources.

Financiado por la Unión Europea

Plan de Recuperación, Transformación y Resiliencia

**TÍTULO DESCRIPTIVO DEL PROYECTO**

Proyecto según el programa de Incentivos ligadas al autoconsumo y almacenamiento, con fuentes de energía renovable, así como a la implantación de sistemas térmicos renovables en el sector residencial en el marco del Plan de Recuperación, Transformación y Resiliencia, financiado por la Unión Europea - NextGenerationEU

#PlanDeRecuperación

Beneficiario: BODEGAS MURIL, S.A.

Componente (C711): ACTUACIÓN DE GENERACIÓN CON ENERGÍA RENOVABLE

Inversión total: 28.180,00 €

Importe de la ayuda: 15.572,00 €

Patencia IBI: 85,4 m<sup>2</sup>

Parcela Catastral: 4770201
